

## Mouse anti-Varicella zoster virus(VZV) antibody, mAb 3D6

**Cat#: 05-0159**

| GENERAL INFORMATION   |   |
|---|---|
| Physical State  | Liquid  |
| Immunogen   | gE-protein  |
| Preparation   | This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified gE-protein. The IgG fraction of the cell culture supernatant was purified by Protein G affinity chromatography. |
| Specificity   | Base on ELISA, this antibody reacts with gE-protein.  |
| Formulation   | Please see Certificate of Analysis for specific instructions.   |
| Storage   | This antibody can be stored at 2°C-8°C for short term(1-2 weeks) without detectable loss of activity. Antibody products are stable for 2 years from date of receipt when stored at -20°C to -80°C. Avoid repeated freeze-thaw cycles.                               |
| APPLICATIONS  |   |
| ELISA   | This antibody is suitable for use in ELISA: 0.02µg/ml   |
| Please Note: Optimal concentrations/dilutions should be determined by the end user. |   |
